Metalic Facing for Walls. A metalic facing for walls of build-ings, by which the surface is made to resemble cut stonework, is proposed. According to this method, the grooves representing joints between stonework are stamped or otherwise formed upon the outer faces of the sheets, thus producing extended projections on the inner side of the sheets. These proportions fulfill the purpose of bearings against, and hold the plain portions of the sheet away from the work, sufficiently to form air spaces between the walls and metalle facings of the structure, the effect of this being to insure the very great advantage of protection of the building from dampness, as well as from cold in winter and heat in summer, the danger from According to this method, the grooves and heat in summer, the danger from external fires being likewise dimin-

Wonderful Record

Since Sept. 15th we have bought over 1800 pairs of Anderson's

and to-day we have only 200 pairs in the house.

1600 pairs in two months of one kind of shoe is truly a wonderful and unprecedented sale. And yet as wonderful as this sale has been, there is something more wonderful and interesting to the shoe buying public, in regard to this shoe. It has a history dating back ten years and sometime in the future we will give it to you, but at present we want to tell you that half of your shoe bill can be saved by having your family wear Anderson's "Wear-for-ever" Shoes. They are made for hard every day wear and will outwear two pairs of any other shoe of same weight and price.

The front lace in this shoe is \$1.50 and the button \$1.75. We have been unable to supply the demand on them, but will have 600 pairs in a few days and will promise to keep all sizes in stock from now on on. Try one pair on our recommendation and if they dont give you satisfaction you money will be refunded.
